

Fully Automatic Online Inkjet Printer

产品综述

Intuitive UI Interface

Clear and concise icons allow users to easily navigate and operate the product without confusion.

Brand New System

A more powerful CPU processor with highly integrated performance supports USB and Bluetooth file uploads to enhance efficiency.

Sensitive Photoelectric

Provides accurate and consistent printing through precise detection.

Adjustable Stand

The adjustable stand accommodates different product sizes and allows for printing position adjustments.

Product Features

High-Definition Touchscreen

7 Inches / Capacitive Touchscreen / Brand New UI Interface

Supports Multiple Languages

Supports variable data import with one-click switching between 28 languages

Supports Printing Various Content

Text, date, numbers, images, QR codes, barcodes, time counters, form documents, labels, production dates, logos, and more.

Application

Easy implementation of coding for different materials

Aluminum foil bag

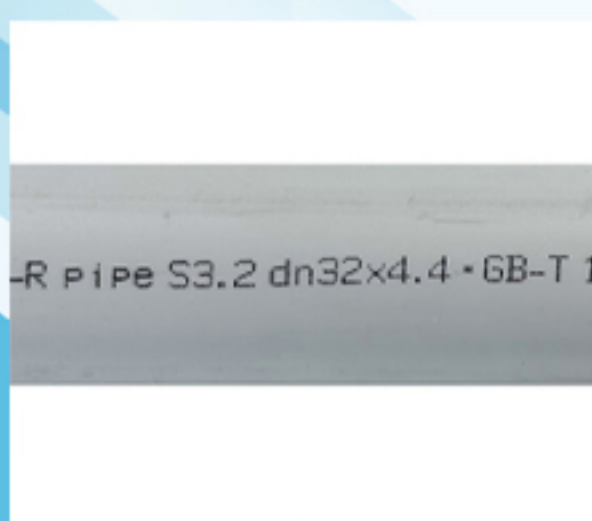

Plastic bottle

Packaging bag

T-shirt

Pipe

Metal

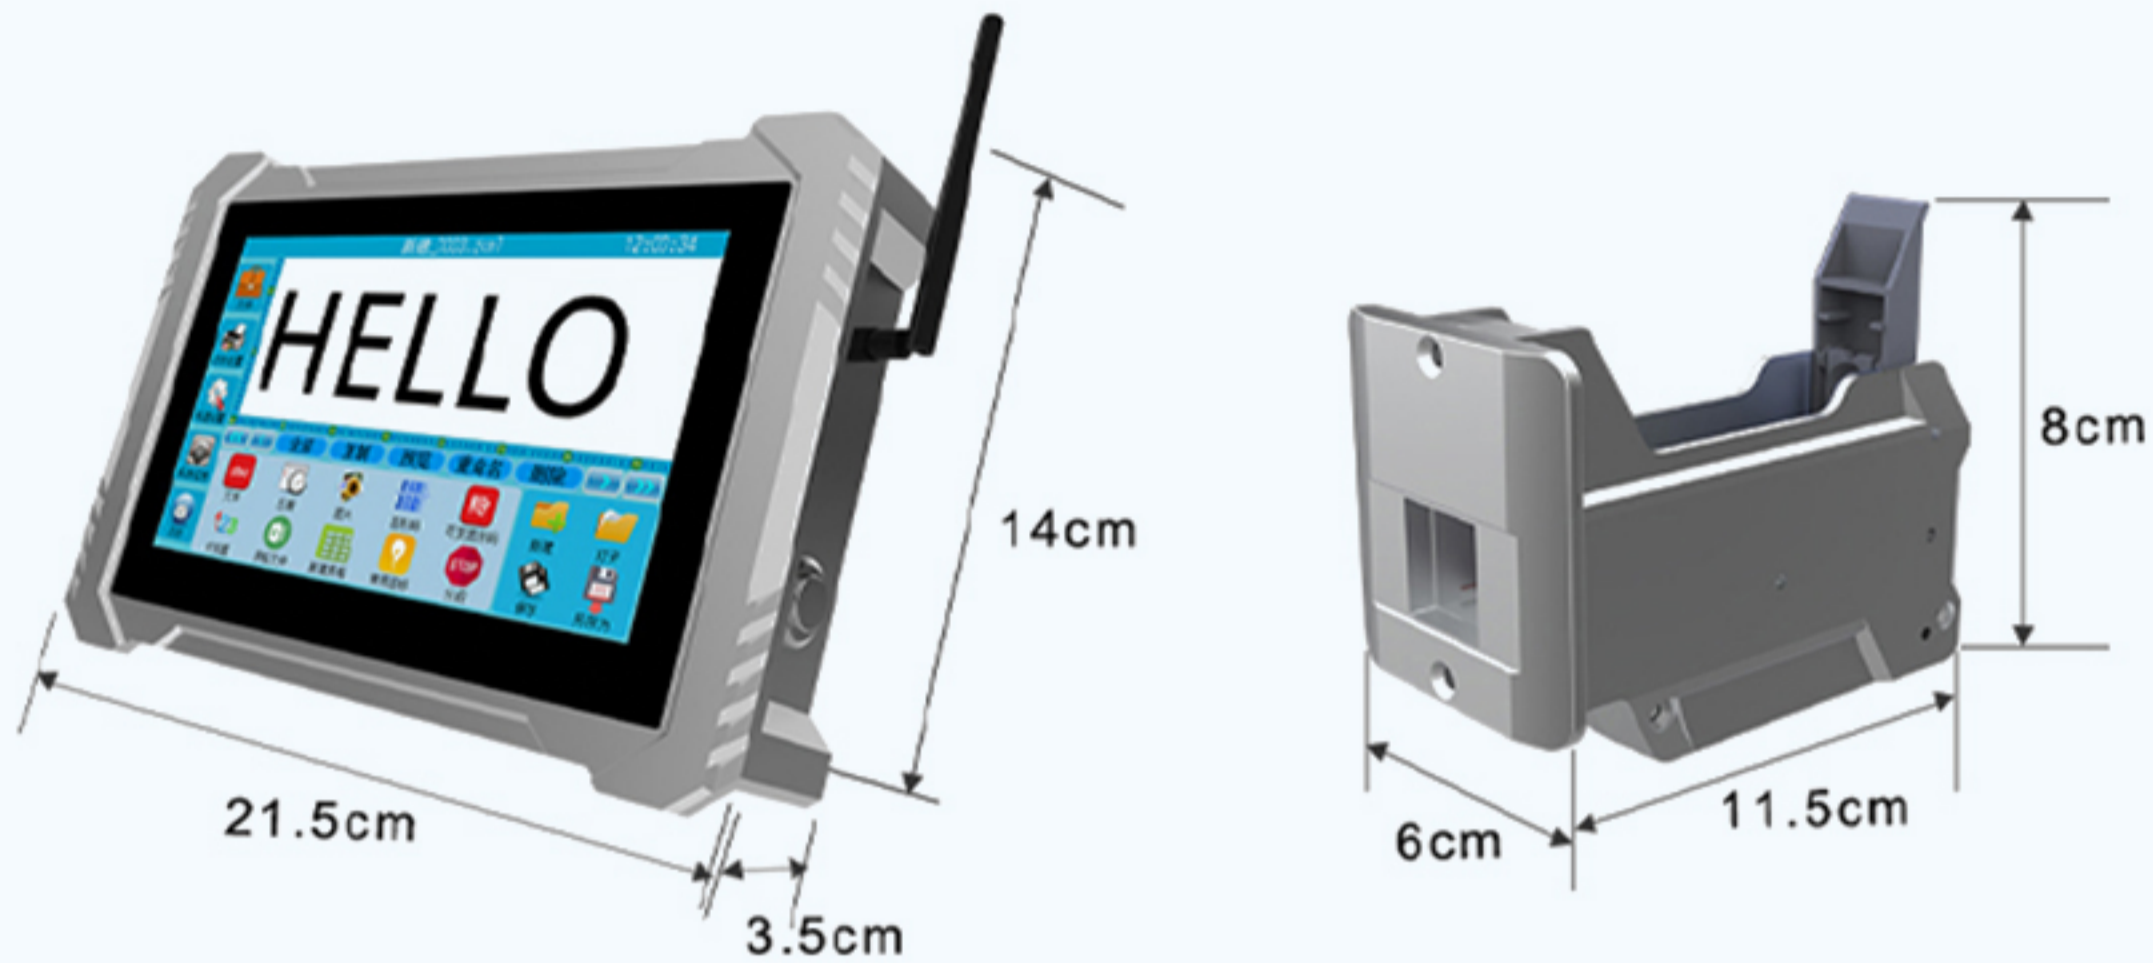

Mask

Egg

Product size

Product Specifications

Print distance	2-5mm is the best print distance
Body size	215mm*35mm*140mm
Body material	aluminum alloy
Print height	2-12.7mm or 2-25.4mm (Higher print height can be customized)
Language	Supports 28 languages, including Chinese, English, Arabic,Turkish, etc.
Print content	Can print date, text, batch number, QR code, logo, etc.
Ink type	Solvent/42ml
Ink color	Black, White, Red, blue, Yellow, Green, Invisible
External interface	Power interface, encoder interface, sensor interface, USB interface,HDMI interface
Print material	Plate, carton,stone, pipe, cable, metal, plastic, glass, electronic,devices, etc.
Print speed	0-110 Meters/minute
Power adapter	60W 12V
